Try Ubuntu

Install Ubuntu

You can try Ubuntu without making any changes to your computer, directly from this CD.

Or if you're ready, you can install Ubuntu alongside (or instead of) your current operating system. This shouldn't take too long.

You may wish to read the [release notes](#).

## Install

# Preparing to install Ubuntu

For best results, please ensure that this computer:

✓ has at least 5.3 GB available drive space

✓ is plugged in to a power source

✓ is connected to the Internet

☒ Download updates while installing

Ubuntu uses third-party software to play Flash, MP3 and other media, and to work with some graphics and wi-fi hardware. Some of this software is proprietary. The software is subject to license terms included with its documentation.

☒ Install this third-party software

Fluendo MP3 plugin includes MPEG Layer-3 audio decoding technology licensed from Fraunhofer IIS and Technicolor SA.

### Installation type

This computer currently has no detected operating systems. What would you like to do?

- ☐ Erase disk and install Ubuntu  
**Warning:** This will delete any files on the disk.
- ☐ Encrypt the new Ubuntu installation for security  
You will choose a security key in the next step.
- ☐ Use LVM with the new Ubuntu installation  
This will set up Logical Volume Management. It allows taking snapshots and easier partition resizing.
- ☒ Something else  
You can create or resize partitions yourself, or choose multiple partitions for Ubuntu.

## Mall-ul fentează executarea silită și intră în insolvență

Proprietarul Electroputere Parc și-a cerut de urgență insolvența, iar cererea i-a fost acceptată ieri de Tribunalul Brăila. Mall-ul scapă astfel, temporar, de orice formă de executare silită. Electroputere Parc ar fi trebuit să fie executat silit mâine, dată la care ar fi avut loc prima licitație de vânzare prin executare a clădirii și terenurilor

Hard drive

If you wish you can add a virtual hard drive to the new machine. You can either create a new hard drive file or select one from the list or from another location using the folder icon.

If you need a more complex storage set-up you can skip this step and make the changes to the machine settings once the machine is created.

The recommended size of the hard drive is **20,00 GB**.

### Storage on physical hard drive

Please choose whether the new virtual hard drive file should grow as it is used (dynamically allocated) or if it should be created at its maximum size (fixed size).

A **dynamically allocated** hard drive file will only use space on your physical hard drive as it fills up (up to a maximum **fixed size**), although it will not shrink again automatically when space on it is freed.

A **fixed size** hard drive file may take longer to create on some systems but is often faster to use.

## iATKOS ML2 Installation Guide

The oscar goes to Apple and OSX86 community..

Thanks to @mhr\_pii, @dramen and @krmtna for their works..

Thanks to @denizckosar for the artwork..

Thanks to all the GGRN people..

### Attention:

- 1-** a) This is an OSX86 installer and this is designed for Non-Apple X86\_64 Intel CPU computers.  
b) This installer includes Apple's Mac OS X Mountain Lion 10.8.2 (Build 12C54).  
c) You do not need any other OS X system on your target computer to install OS X Mountain Lion. You only need iATKOS ML2 dmg file burned to a Dual Layer DVD/Blu-Ray or restored on a USB media.
